

AMERICAN TASK FORCE  
**ARGENTINA**

## The Demand for an Argentine Debt Settlement is *Growing*.

ATFA and its twenty-nine new coalition members urge Congress to make an Argentine debt settlement a legislative priority in 2008. When the Argentine government in 2005 repudiated half of the loans it had taken out from foreign lenders, it cost Americans *billions* of dollars.

Our new members represent agriculture workers, educators and taxpayers. We believe that the United States government should insist that the government of Argentina negotiate a fair debt settlement — one that represents the interests of all Americans.

### **ATFA's New Members:**

American Agriculture Movement  
American Agri-Women  
American Corn Growers Association  
Cattle Producers of Washington  
Colorado Independent Cattle Growers Association
